We are experiencing a seismic shift in the global financial and social landscape. Faced with free-falling financial markets, layoffs, and nonprofit organizations that are slashing budgets and services to stay solvent, many are fraught with anxiety. What does it mean to live as Christians in uncertain times? How can we support one another to live "beyond security"?

Choose from 33 workshops; explore with cutting-edge leaders how risky discipleship can transform our world. Find critical insights and practical ways to use resources for God's mission.
